

Help Epitec Support Ann Arbor GiveCamp 2010

A GiveCamp is a weekend-long event where software developers, designers, and database administrators donate their time to create custom software for non-profit organizations. This custom software could be a new website for the nonprofit organization, a small data-collection application to keep track of members, or an application for the Red Cross that automatically emails a blood donor three months after they've donated blood to remind them that they are now eligible to donate again. The only limitation is that the project should be scoped to be able to be completed in a weekend.

Volunteering for a GiveCamp event is an opportunity for you to use your skills to assist non-profit organizations reach their full potential.

It Feels Good To Hire The Right People

What: Ann Arbor GiveCamp 2010

When: September 17-19, 2010

Where: Washtenaw Community College
4800 E Huron River Drive
Ann Arbor, MI 48105

It's a great opportunity for people to work together, developing new friendships, and doing something important for their community.
